Mike,

As a follow-up to my email below, PRD provided an update on Tribufos (they didn't add anything new to the Acephate slide from Rick's January presentation).

Tim asked me to convey the following points to you:

1. The web schedule for both acephate and tribufos is likely not realistic. There is a slim chance that acephate could be completed in FY21 Q4 , but not tribufos.
2. Acephate has both sets of assays, so potentially could be among the few that get FQPA safety factor reduction depending on what the SAP report says. Tribufos does not have both assays, so we likely will either have to refine drinking water, move forward with significant mitigation, or wait for the ORD testing to be completed.
3. I think it would be safest to say publicly that the PIDs and IDs will be completed in FY22. Acephate will likely come before tribufos.
4. Please note the spelling is tribufos not tribuphos.

Mike,

I used Rick's Jan 2020 Beltwide Conf. slides as the guide for topics and used the slides in Ed's recent Region 7&8 meeting as the updated slides. In an effort to cut down on the number of slides, I folded some slides into the notes sections of slides. I also suggest deleting the slides highlighted red (these topics were not in Rick's Jan deck). PRD is providing the updates for Acephate and Tribuphos.

Slides with notes: 1, 17, 48

Slides I suggest delete: 22, 32, 35, 36, 41-42

We can continue to work on this, but let me know if you have any suggested revisions. Thanks.

Darlene

This one is coming up – can you help me put together some slides please?
I assume I have 30 mins – so about 20-25 slides

Start with Overview of OPP
Program Priorities
Cotton Issues – registration/reg review including dicamba.

Maybe we can set up a time to chat first.

Dear Michael Goodis, P.E.

We look forward to your virtual presentation, Update on EPA's Pesticide Program Activities, at the 2021 Beltwide Cotton Conferences.

Your paper is scheduled to be presented at the Consultants Conference General Session. This session starts at 8:00 AM on Tuesday, January 5, 2021. As of now, your paper is tentatively scheduled to be presented at 10:30 AM.

The final program will be available by mid December 2020 at <http://www.cotton.org/beltwide>.

Manuscript preparation instructions, a manuscript template, an example manuscript and a manuscript

checklist for the proceedings are available on line at:

http://www.cotton.org/beltwide/index.cfm?page=presentation_manuscript_instructions

You will be sent instructions for your virtual Zoom PowerPoint/PDF presentation at a later date. You should also be aware that if you give your permission, your presentation and slides will be posted online following this year's Beltwide Cotton Conferences. ONLY presenters who give us permission to post their presentations will be included on the NCC-CONFEX website. In other words, presenters must "opt in" or their presentations will not be included. You may view presentations from last year's conference by using the following link:

<http://ncc.confex.com/ncc/2020/webprogram/start.html>.

Thank you for your participation in the 2021 Beltwide Cotton Conferences!

Thank you,

Lauren Krogman

BWCC Coordinator
